

DEPARTMENT OF THE ARMY
U.S. Army Corps of Engineers
Washington, DC 20314-1000

EC 11-1-114

CECW-EV

Circular
No. 11-1-114.

28 February 2003

EXPIRATION DATE: 31 March 2005
Army Programs

VALUE MANAGEMENT (VM) / VALUE ENGINEERING (VE)

1. Purpose. This circular transmits a draft engineer regulation that provides general policy, procedures, and framework for execution of Value Management/Value Engineering.
2. Applicability. This circular applies to all VM/VE activities of the Corps of Engineers.
3. Distribution Statement. All Major Subordinate Commands, Engineering Centers, and Districts are included on distribution.
4. References. Required and related references are at Appendix A of attachment.
5. General and Procedural Requirements for Executing Subject Corps work. Details outlined in ER 11-1-XXX, attached.
6. Action Required. This draft ER should be used as interim policy and guidance pending publication of the final ER. Any comments regarding improvements or clarifications should be submitted to HQUSACE (CECW-EV), Washington, D.C. 20314-1000, within one year of publication of this EC.

FOR THE COMMANDER:

Attachment

DWIGHT A. BERANEK, P.E.
Chief, Engineering and Construction Division
Directorate of Civil Works

This regulation will be reviewed and updated as appropriate and supersedes all previous versions of Value Engineering (VE) regulations.
